HISTORY

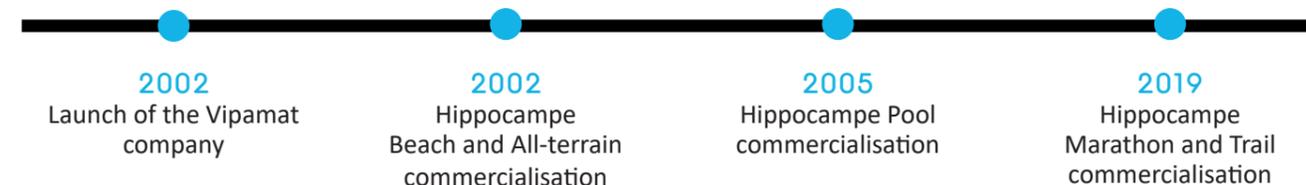

Table of contents

Hippocampe Beach and All-terrain

4 - 9

The leisure wheelchair for water activities, walk on all terrains and water immersion.

Hippocampe Pool

16 - 17

The pool wheelchair is adapted to private or public pools and allows access to all areas of aquatic establishments.

Based in France, Vipamat designs and manufactures the Hippocampe wheelchairs range to give you access to new leisure activities and discover new horizons. With its products, Vipamat ensures comfort, durability, accessibility and ergonomics to its users around the world.

“ Our commitment:

to be as close as possible to the users to develop innovative and quality products.

”

Patrice Faucogney, Air Force veteran and helicopter mechanic, became paralyzed following a snowboard accident. Despite his handicap, he wished to continue his outdoor activities, especially water activities. With Vincent Leroy, his physiotherapist, he designs a wheelchair that would allow him to access the beach and swim. Together, they created Vipamat in 2002.

HIPPOCAMPE®

Beach and All-terrain

BEACH

The Hippocampe Beach and All-Terrain does not have ball bearings, it is designed to fit in the sand. The optional balloon wheels make it easier to move in the sand.

SWIMMING

Thanks to its immersion in the water, you can fully enjoy swimming. You can get down and back up easily on the Hippocampe wheelchair with the help of a companion.

WATER ACTIVITIES

The Hippocampe makes access to craft easier so you can take part in water activities: adapted kayaking, handisurfing, diving, sailing and swimming.

WALK

Adults or children, go for beautiful walks in the forest, on the beach, or in the countryside. The options allow you to adapt the Hippocampe to your needs and to different grounds.

HIPPOCAMPE® Beach and All-terrain

ACCESS NEW LEISURE ACTIVITIES

The Hippocampe Beach and All-terrain accompanies you in all your outdoor activities.

Versatile and comfortable, it adapts to your leisure activities so you can share relaxing and convivial moments with your relatives.

Thanks to its many comfort and leisure options, the Hippocampe becomes a real must-have to **move around on all grounds**.

The Hippocampe Beach and All-terrain is the partner for your holidays and outdoor outings.

HIKE

The Hippocampe allows you to enjoy mountain or forest hikes, to discover panoramas inaccessible to standard wheelchairs.

SNOW

Enjoy the snow with the front ski and the rear skis set options. The skis adapt to the reliefs so you can progress on snowy grounds.

OPTIONS

HIPPOCAMPE®

Beach and All-terrain

The Hippocampe Beach and All-Terrain is available in two colours: pink or blue, and in four sizes: S, M, L and XL.

The wheelchair is offered with around twenty options allowing you to configure it to your needs.

SUPPORT AND SAFETY OPTIONS

Pair of adjustable and swiveling armrests

The armrests, covered with foam, can be swivelled and retracted to facilitate transfers in the Hippocampe wheelchair.

Adjustable and removable headrest

The headrest is covered with comfortable foam and adapts to the user's position. It is adjustable forwards, backwards and in height.

Harness

Made of comfortable and water-resistant elastic neoprene, the 4-point harness facilitates the user's support and positioning.

Waist belt

Wide and comfortable, the waist belt keeps the user in a secure position at the bottom of the seat. A comfort foam protects the user from contact with the buckle.

20" wheel covers

The 20" wheel covers protect the user's hand from contact with the wheels.

Parking brakes

Pivoting and stainless steel, the parking brakes allow the wheelchair to be immobilised on small slopes or to facilitate transfers.

Comfortable Plus Duo

The Stabilo neoprene positioning cushion can be shaped with a vacuum and provides additional support to the user by perfectly adapting to the body's shape and needs. It is waterproof.

Adjustable in height and reclining seat back frame

The height adjustable and reclining seat back frame makes it easy to vary the total height of the backrest according to the user's needs.

Armrests nets

The armrest nets fit between the seat and armrests, to protect the user's hands from the wheel spokes.

Footrest net

The footrest net fits between the seat and the footrest, to protect the user's feet.

COMFORT OPTIONS

Thermal cover

Comfortable and resistant, the thermal cover protects the user from cold and rain. Available in two sizes: M and L.

Rain canopy and legs protection

Suitable for rain, sun and wind, the rain canopy and legs protection is made of anti-UV materials. Thanks to its wide, transparent windows, the user can enjoy a panoramic view.

Umbrella

The asymmetrical umbrella is wind resistant and protects from rain and sunrays.

LEISURE OPTIONS

Pair of balloon wheels

Perfect for the beach, these balloon wheels, designed for sand, replace the dual wheels and make it easier to push the wheelchair on fine sand.

Front ski

The front ski allows the wheelchair to move forwards on snowy paths and avoids snow accumulation on the front wheel.

Pair of rear skis

Installed in place of the rear wheels and combined with the front ski, the pair of rear skis allows the Hippocampe to adapt to snowy reliefs.

Handlebar

The handlebar optimises the pusher's hand positioning and facilitates off-road walks.

BAGS

Transport bag

Useful when travelling, this bag allows you to transport the Hippocampe wheelchair during car or plane trips.

Backrest bag

The backrest bag, fitted on the back of the seat, allows to carry your personal belongings during your leisure activities and walks.

Bag for balloon wheels

Ballon wheels, which facilitate walks on dry sand, can be tricky to carry. With the bag for ballon wheels and its side handles, the pair of wheels can even be carried with one hand.

HIPPOCAMPE®

Pool

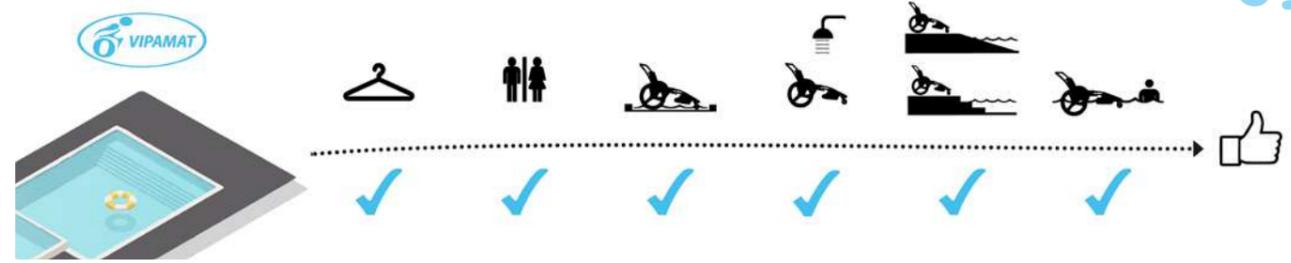

COLLECTIVE POOL

Ideal for municipal pools, campsites, leisure centers and aquatic centers, the Hippocampe Pool allows you to access the pools. The gray tyres do not mark the non-slip floors.

PRIVATE POOL

The Hippocampe Pool allows you to get into the water easily in a private pool if it is equipped with small steps or a slope.

ACCESS TO ALL AQUATIC AREAS

HIPPOCAMPE® Pool

AQUATIC AREAS ACCESSIBLE TO ALL

The Hippocampe Pool simplifies access to aquatic areas for people with reduced mobility.

Amphibian, easy to use and hygienic, it *accompanies its users from the changing room to the pools*, avoiding multiple transfers.

VIPAMAT ensures a level of quality and performance that meets the certification requirements CE, of the FDA and ISO 13485.

The Hippocampe Pool equips many swimming pools, aquatic centres and campsites.
